

Why we Recommend Porcelain E4D Crowns

Porcelain E4D Crowns

Translucent
Most aesthetic, natural looking
Resistance to thermal shock
Strong
Can be completed in 1-2 days in our office

Porcelain Fused to Metal (PFM)

Has metal substructure underneath the porcelain
Contains a variety of metal alloys
Possible metal allergies
Takes 2-3 weeks for lab to fabricate.

Winner of the February Raffle:

Winners receive a Professional Care SmartSeries Electric Toothbrush, bag, Crest toothpaste, and Crest mouthwash.

To enter to win:

Refer a friend or family member to us! We will place your name in a raffle. The drawing will be on the first of each month!

Congratulations Chuck!

Meet Sarah:

I had been working as Insurance Coordinator; however, I have recently taken the role of Office Manager. I've been working here since July 2010. I had been working in the medical field since 2005 in Internal Medicine. Rocklin Family Dental Group is a good place to be because all the patients and staff are great to work with. We get things done while laughing and having fun. On my days off I love to go surfing in Santa Cruz and Mendocino. I'm going to go to Tahoe soon to give snowboarding a try for when I can't get in the water. I'm very close to my parents, sister and brother in law who is my best friend. I have Eathan my 1 year old nephew who is the best kid on the planet! I'm lucky to have great family all close to me!

(L)Sarah: Office Manager, (R)Eathan
